

7/24/07

Dear Ms Wiles -

We are writing to express our opinion RE: the re-opening of the Lost Horse Quarry.

As residents of Lost Horse Road, we object to the idea of increased truck traffic on the road as well as the road damage that truck traffic usually causes. We are also concerned that widening the road will not only infringe on the property rights of those living closest to the road, but also lead to traffic moving at higher speeds on Lost Horse Rd.

From a broader perspective we see this as a general quality of life issue. This time the quality of life on Lost Horse Rd. is in question. But the decisions that are made in this part of the county reflect the values and priorities regarding quality of life in the County as a whole.

Sincerely,

Patrick Brown  
Shawn N. Manderville
